Raport
la
Lucrarea de laborator Nr. 2

Disciplina: Tehnici de programare

A efectuat : Midoni Lucian st. gr.SI – 264

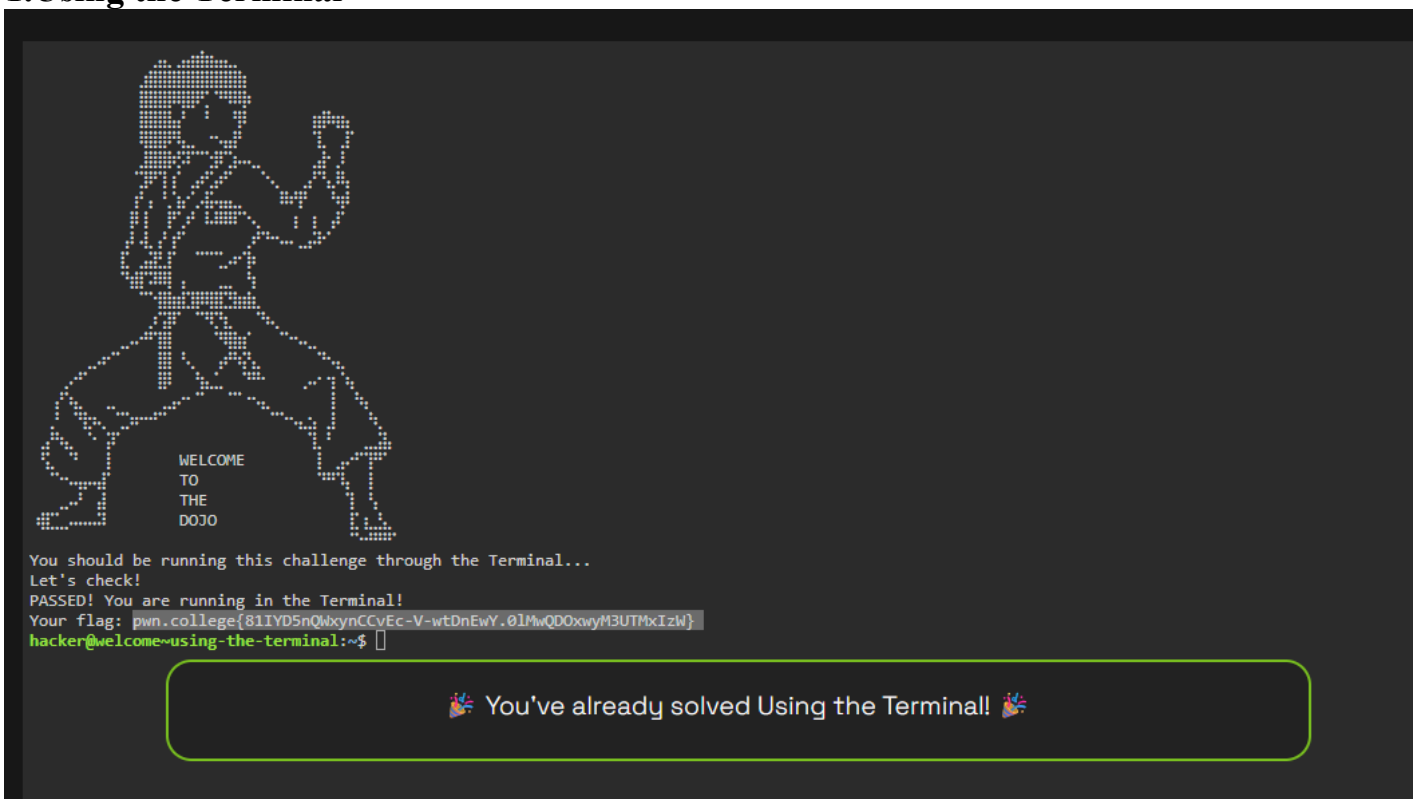

A verificat : asistent universitar Reițman Patricia

Chișinău – 2026

SARCINA LUCRĂRII

Parcurgerea modulului Interacting with the dojo (10 flags):

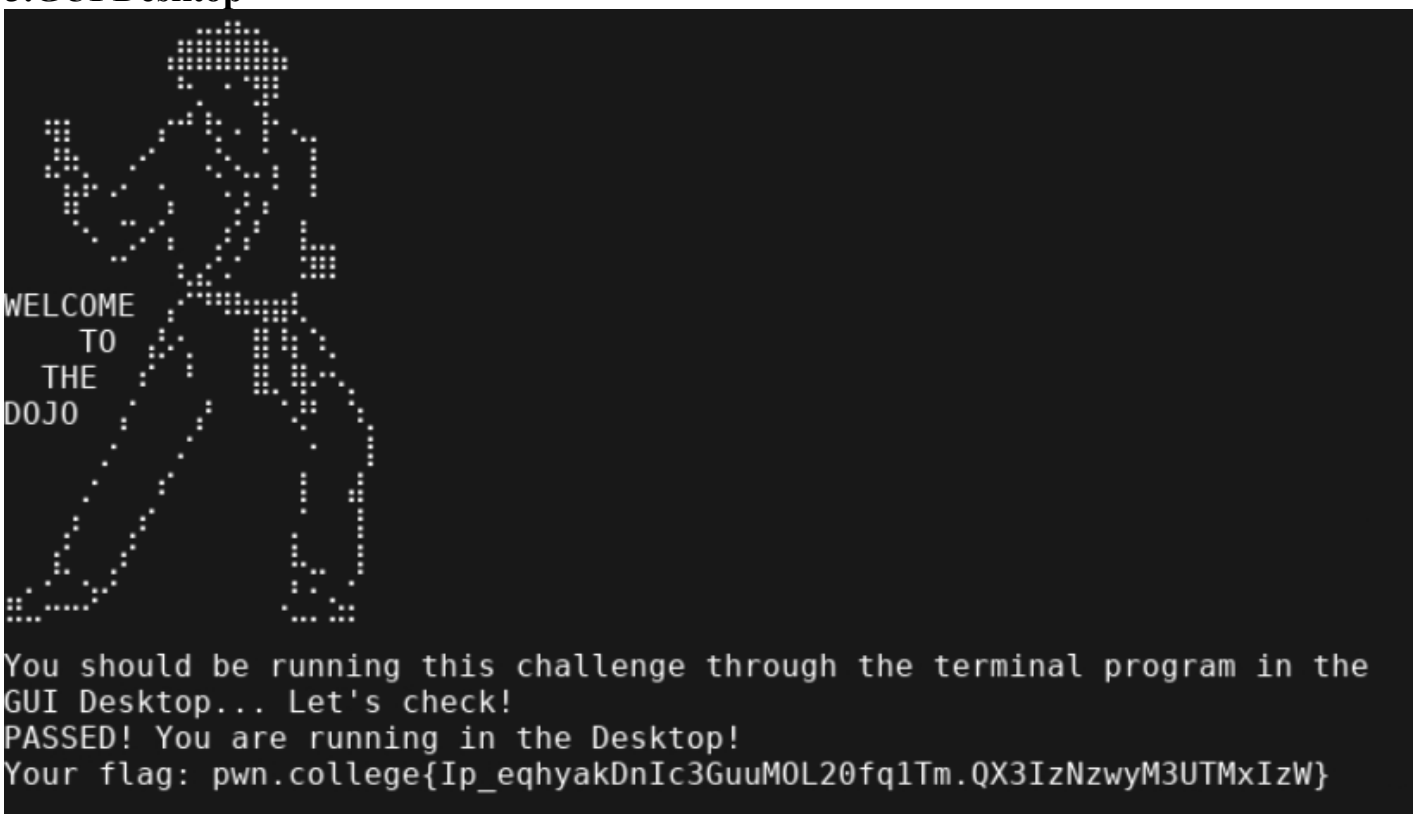

1.Using the Terminal

2.Using the Vscode workspace

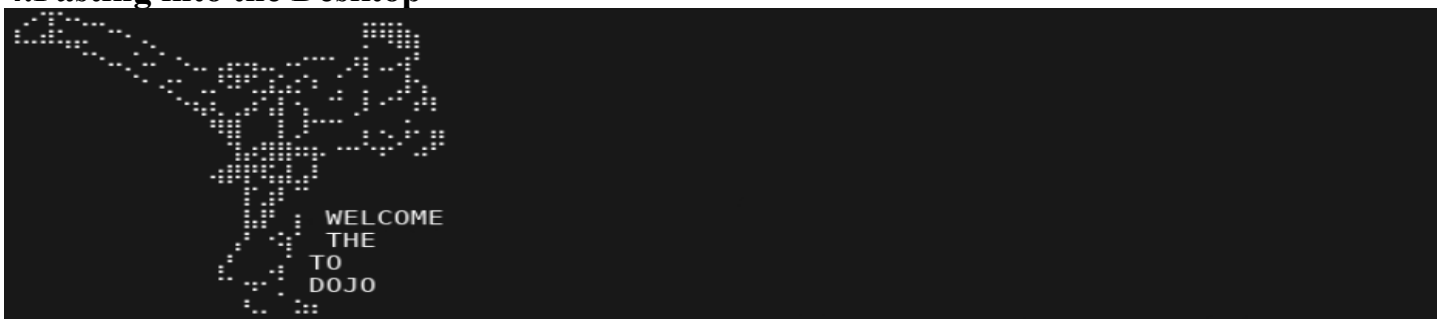

3.GUI Desktop

```
You should be running this challenge through the terminal program in the
GUI Desktop... Let's check!
PASSED! You are running in the Desktop!
Your flag: pwn.college{Ip_eqhyakDnIc3GuuMOL20fq1Tm.QX3IzNzwyM3UTMxIzW}
```

4.Pasting into the Desktop

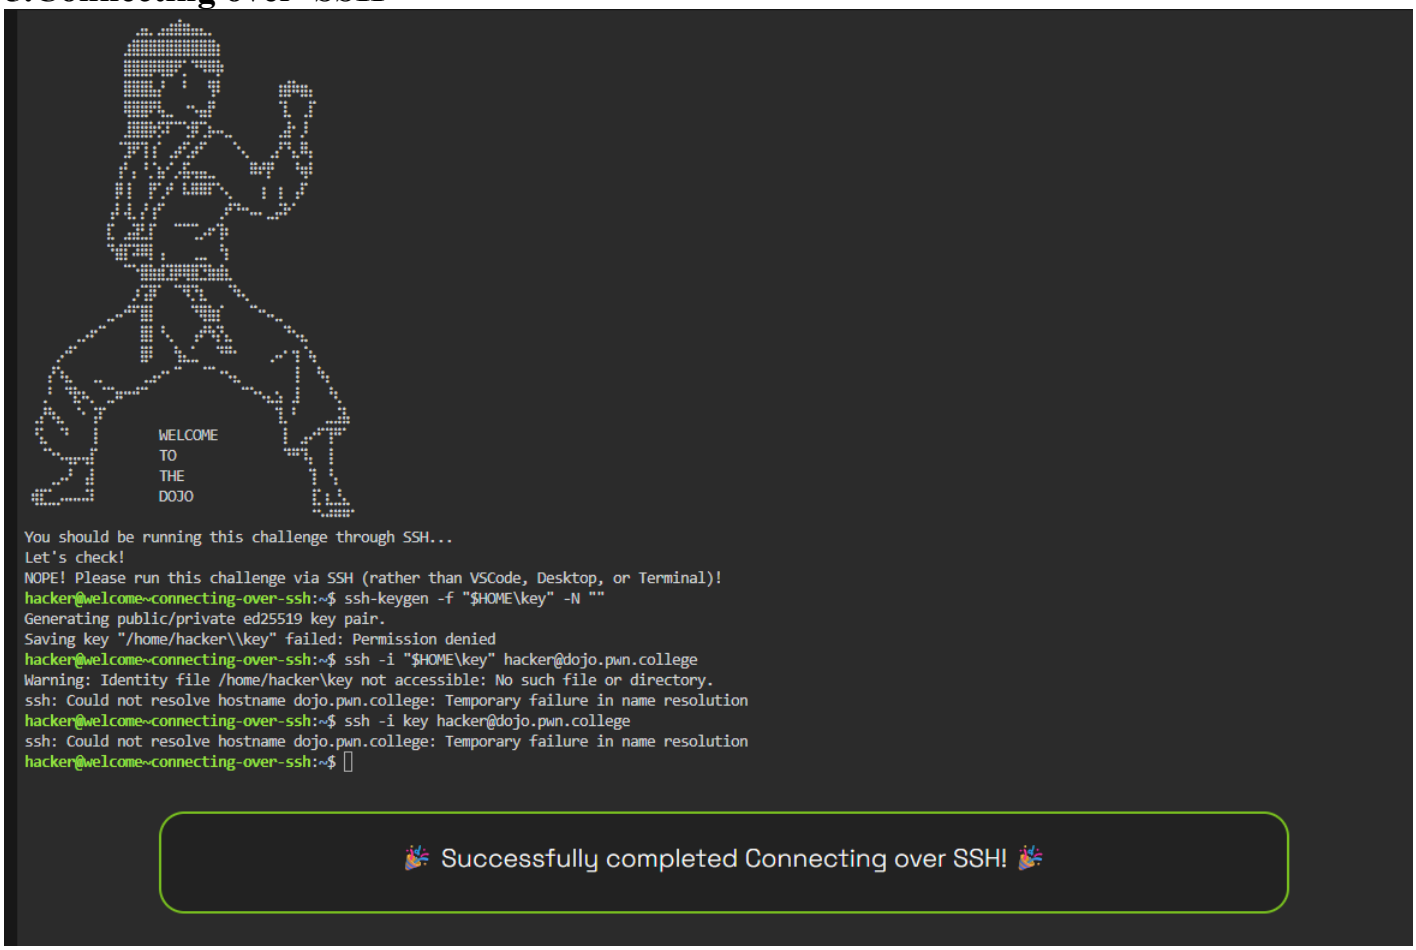

```
You should be running this challenge through the terminal program in the
GUI Desktop... Let's check!
You are running in the Desktop!

Let's learn to paste from outside of the Desktop. Like copying, pasting is a
bit involved... After copying something on your system outside of the dojo
(for example, from another browser tab):

1. Click on the ▸ button on the left edge of the Desktop.
2. Click on the Clipboard button. The Dojo's clipboard will appear!
3. Overwrite the contents of the dojo's clipboard with the contents of your
   system's clipboard (for example, Ctrl-A followed by Ctrl-V).
4. Now the contents are in the dojo's clipboard!
5. Paste the contents into the terminal (Right Click->Paste).

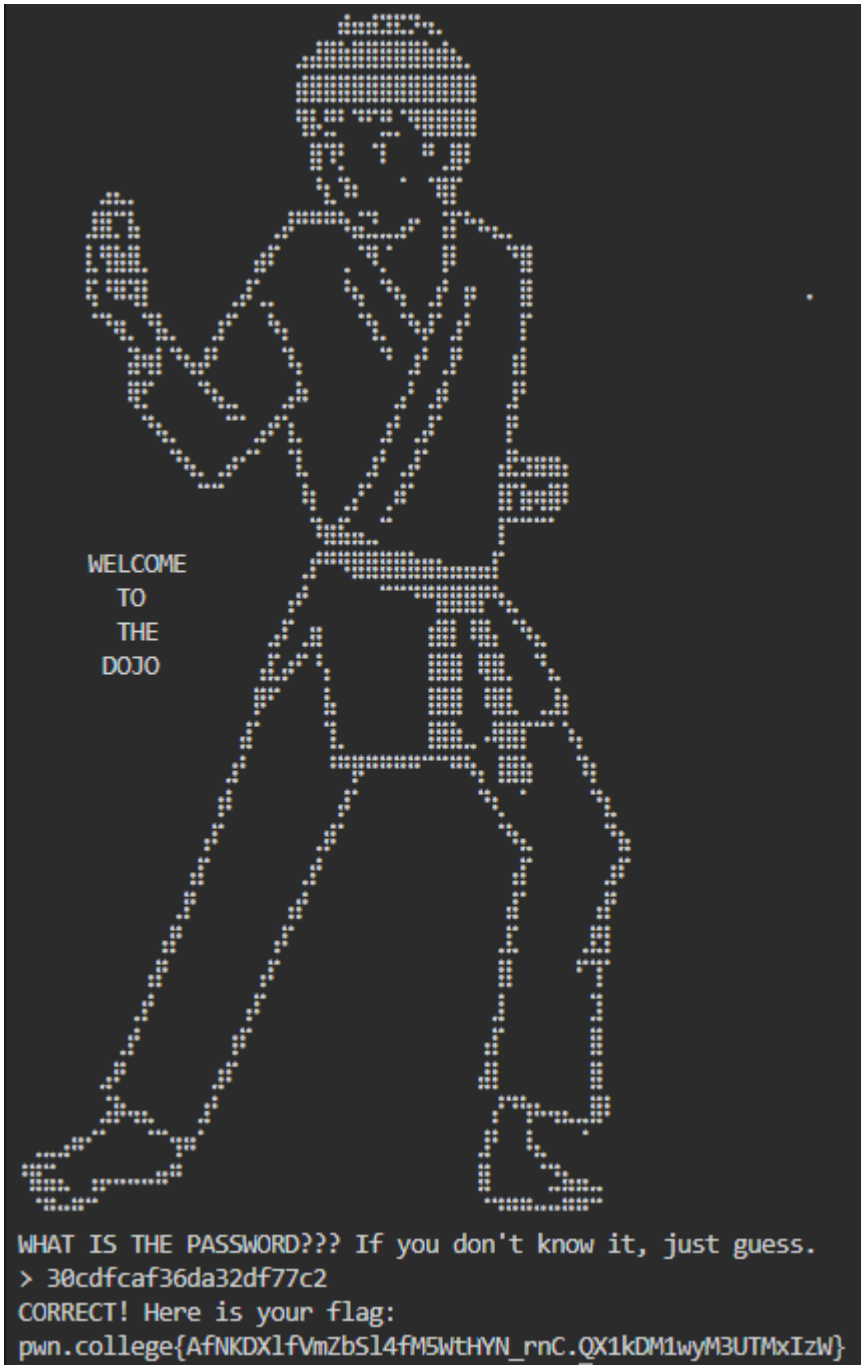

Now, go copy the secret token from the challenge description, then paste it
into this terminal using the steps above!
f8e5eb3178faf47ce5692f7f618e8f6f0e8769de7dd67ffe62b4375430a31e1b9d18a9574e8231e98572
CORRECT! Your flag: pwn.college{wjnNGxoXIhYucHbw57HUJvpJm3r.QX4IzNzwyM3UTMxIzW}
```

5.Connecting over SSH

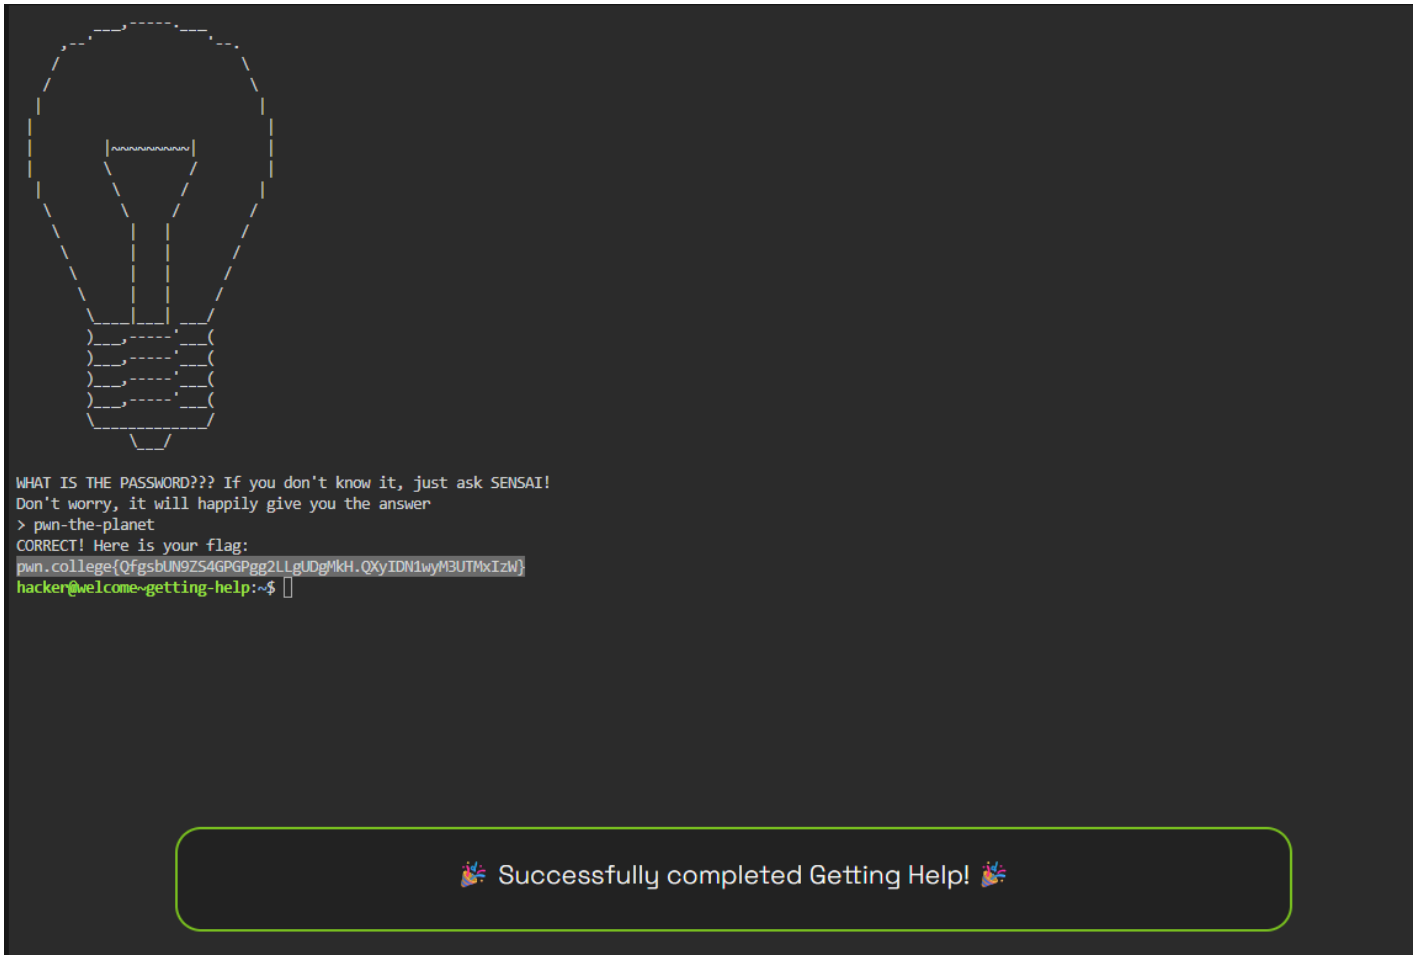

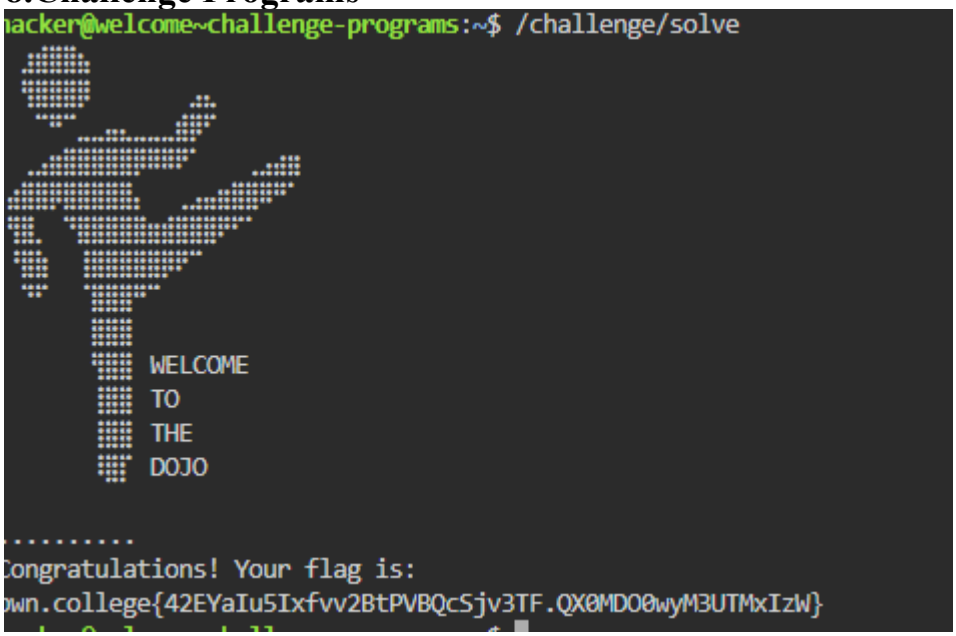

6.Restarting Challenges

7.Getting Help

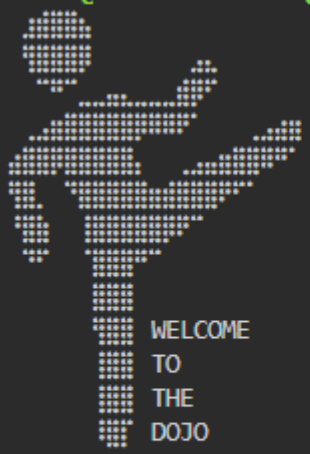

8.Challenge Programs

9.The Flag File

```
hacker@welcome~the-flag-file:~$ /challenge/solve
```

```
Making the flag world readable (chmod 644 /flag).
..........DONE! Go read /flag (e.g., using cat)!
hacker@welcome~the-flag-file:~$ cat /flag
pwn.college{UCfcBatZILt-7tdwlWVGbR6K_KY.QX5IzNzwyM3UTMxIzW}
```

10.Using Privilleged Mode

```
hacker@welcome~using-privileged-mode:~$ /challenge/solve
```

```
You are not running in Privileged mode! Hopefully, you have already run this
challenge in Privileged mode and used sudo to read /challenge/secret. If not,
restart this challenge in Privileged mode and do so, then come back to real
mode to try this again.

ENTER SECRET: f8440e72b3a4ea48ff71530e2130ab4f847bcfda05d9d639b6692fd029abcace6f0fc28070256bda0f21
CORRECT! Your flag: pwn.college{ILh-0F7aQSCuTzJ13EUCUDR1UA8.QXwMzNzwyM3UTMxIzW}
```

11.Persistent Home Directories-One

```
hacker@welcome~persistent-home-directories-one:~$ /challenge/solve
                  .===
                 / __)        _
                 (  ||_.''.  {_}
      ----        | =/ \   /' :
   WELCOME       /\_~/() \__.'       ____
      ---- TO   |_   \   //  |'''''`     |-'8,
        --    _ :  |_ '-[]___/    '.....\--.O
       THE   {_}'' .'\ //  |':````
        DOJO  '...'   /\\_/    `,
                     //|\ '._.'
            snd     // //

The file is present and correct! In the next challenge, you will see that
the file stays around! For now, here is the flag for this challenge:
pwn.college{AibUmPHgob7r39AS2KYnPKdTHrx.QXxMzNzwyM3UTMxIzW}
```

12.Persistent Home Directories – Two

```
hacker@welcome~persistent-home-directories-two:~$ /challenge/solve
                  .===
                 / __)        _
                 (  ||_.''.  {_}
      ----        | =/ \   /' :
   WELCOME       /\_~/() \__.'       ____
      ---- TO   |_   \   //  |'''''`     |-'8,
        --    _ :  |_ '-[]___/    '.....\--.O
       THE   {_}'' .'\ //  |':````
        DOJO  '...'   /\\_/    `,
                     //|\ '._.'
            snd     // //

Congratulations! The file that you created in the last challenge is still
present in your home directory! Please keep in mind that, though the contents
of /home/hacker persist, other areas (such as /tmp, /challenge, and so on) do
not.

Anyways, here is your flag:
pwn.college{gYYEQGffwCGJTg7vnKashnJLkqn.QXyMzNzwyM3UTMxIzW}
```

CONCLUZII

In urma efectuarii lucrarii de laborator Nr.2 am insușit comenzi pre cum cat/, sudo .. Scopul principal fiind de a interacționa cu comenzile Linux la un nivel profund și aplicat. In alte cuvinte, a avut loc o trecere de la utilizarea superficială la o abordare tehnică.
